**Importance:** High

Dear CDLIS Working Group,

I have sent FMCSA the MEC Verification Inquiry documents for their review and approval, once the documents are approved the Mini Spec will be released in time for the webinars scheduled on January 25<sup>th</sup> and February 9<sup>th</sup> (these webinars are on the AAMVA Website if you would like to register).

AAMVA is aggressively working on the MEC Transmission documents, with hopes to begin review with the WG in the upcoming weeks. At this time I don't have anything to share with the group, and I am canceling this meeting. Please remove any additional appointments that may have been created by GoToWebinar on your calendars.

Thank you!

The webinar series below has ran out. [Please register](#) for a new series for the second Tuesday of the month:

Please register for CDLIS Working Group National Registry Discussion on Oct 11, 2016 11:00 AM EDT at:

<https://attendee.gotowebinar.com/register/3310764029556413955>

These meetings will be used to review documents and discuss the solution for NRIL.

After registering, you will receive a confirmation email containing information about joining the webinar.

**Attachments:** '17 R-IV Conference Travel Grant App V2.doc

Hello Region IV Administrators,

On behalf of Regional President Pat Kohler, I am pleased to advise that the Region IV Board has once again allocated funding to assist DMV and state police attendees who do not have sufficient agency funds available to attend this year's Region IV conference in Seattle.

A travel grant application is attached for those interested in requesting funding. Please be sure to review the award criteria before submitting an application. The deadline for submission is March 24.

We will be meeting at the Westin Seattle from May 22-24. Keep updated on conference activities on the Events Section of the AAMVA webpage at <http://www.aamva.org/events/>.

Please let me know if you have questions or need additional information. I look forward to seeing you in Seattle!

Sheila

## 2017 AAMVA Region IV Conference

### Travel Grant Application

Region IV DMV or law enforcement attendees who do not have access to jurisdictional funding and wish to receive financial assistance to attend the 2017 Region IV conference in Seattle should complete the grant application and return it by email to [sprior@aamva.org](mailto:sprior@aamva.org) or by fax to 480-393-8988 **no later than March 24, 2017.**

**Please review the grant criteria on the following page before submitting an application.** Please provide ALL requested information by filling in or checking the appropriate boxes. Utilize a separate form for additional applicants.

## 2017 Region IV Conference Travel Grant Funding Award Criteria

1. Applicant must be from a jurisdictional driver licensing, motor vehicle or law enforcement agency.
2. In order to be eligible for travel grant monies, all AAMVA dues must be paid in full.
3. Applicants must have a genuine need for travel assistance, e.g., full or partial jurisdictional funding is not available.
4. Applicants are requested to cover the cost of the conference registration fee if possible.
5. Priority consideration / approval will be given to those agencies that will not be able send anyone to the Regional without grant funding.
6. If submitting more than one application per jurisdiction, ideally multiple disciplines should be represented (*e.g., driver representative, vehicle representative, law enforcement representative, etc.*)
7. All of the hotel room charges for those approved for travel grant funding will be placed on the master account and billed directly to AAMVA Region IV.
8. If an individual(s) opts to drive to the conference, mileage reimbursement cannot exceed what would have been spent on airfare. Travel recipient will be advised of travel budget for those driving.
9. Appropriate jurisdictional / agency travel approvals (*e.g., Director, Secretary, etc.*) must be received by the applicant **PRIOR** to submission of the travel grant request.
10. Individuals receiving travel grant funding must attend the full conference. Early departure is not acceptable.
11. Individuals receiving travel funding must complete a post-conference report/survey.
12. Funding does not include per diem or miscellaneous travel costs. The applicant's agency is asked to cover such costs. If the agency is unable to cover miscellaneous costs, Regional reimbursement is possible.

Hey Lauren,

There is a 'CDLIS Rules for Driver Withdrawals' tomorrow from 2-4 ET. If it is what I think it is, it might be helpful. I don't think it costs anything for AAMVA Jurisdiction members. Would you be okay with me attending and seeing if I can learn anything to help with those withdrawals?

- **January 30<sup>th</sup> CDLIS Performance Reports Part A (intermediate)** - In depth look at the CDLIS Timeliness & Accuracy Summary and Detail Reports. The session emphasizes how these reports can be used to get bad drivers off the road and ultimately save lives. **NOTE:** *This course has been updated with the revised CDLIS Timeliness & Accuracy Summary Workbook format released in February 2016.*
- **January 31<sup>st</sup> CDLIS Performance Reports Part B (intermediate)** - In depth look at the CDLIS Timeliness & Accuracy Summary and Detail Reports. The session picks up where 'Part A' left off. This course goes into the remaining tabs in the Summary report and its corresponding Detail report. **NOTE:** *This course has been updated with the revised CDLIS Timeliness & Accuracy Summary Workbook format released in February 2016.*
- **February 1<sup>st</sup> CD90.4.1 Out-of State Transaction Reports (advanced)** - A very detailed session that will demonstrate how to use the 90.4.1 report as the SOR to reduce the number of missing convictions and to avoid improperly applying withdrawals (ensure the driver history is maintained correctly).
- **February 7<sup>th</sup> CDLIS Reports- Identifying Potential Issues Part 1 (advanced)** - In depth look at how Jurisdictions can use the CDLIS Reports to identify issues, resolve issues and ultimately become green. Part 1 course reviews the CD90.5.3 SDLA Inquiries Check Report, CD90.5.6 Medical Recordkeeping Report, CD90.4.3 Disqualifying Convictions Received and CD90.4.4 Disqualifying Convictions Rejected Reports in great detail. Part 2 covers the other CDLIS Reports.
- **February 8<sup>th</sup> CDLIS Reports- Identifying Potential Issues Part 2 (advanced)** - In depth look at how Jurisdictions can use the CDLIS Reports to identify issues, resolve issues and ultimately become green. The Part 2 course reviews the Quarterly Problem Ticket Report, CD90.7.2 MPR Summary Report, CD90.3.7 Frequent Inquiry Report, CD90.7.4 Out-Of-State Convictions & Withdrawals Posting Report and CD90.7.7 Selective Driver History Validation Report in great detail. The course also reviews additional CDLIS Reports that are useful to Jurisdictions when trying to identify issues.

**NOTE:** All courses are **free** for AAMVA members.

## JURISDICTION NEWS

### Leadership Change at the Indiana BMV

Kent Abernathy, Commissioner of the Indiana Bureau of Motor Vehicles, has announced he will be leaving the BMV on January 9 to pursue other opportunities. Kent says that "Since becoming Commissioner, AAMVA has been an invaluable partner. I have not only met some of the most talented people working in government, I have also formed enduring friendships. It has been an honor to be selected to serve as board member." Peter Lacy, Chief of Staff for the BMV, has been selected as the next Commissioner. We wish both Kent and Peter the best of luck.

### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

### Johns Hopkins: Ignition Interlock Laws Reduce Alcohol-Involved Fatal Crashes

State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. ### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

### Johns Hopkins: Ignition Interlock Laws Reduce Alcohol-Involved Fatal Crashes

State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. ### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

### Johns Hopkins: Ignition Interlock Laws Reduce Alcohol-Involved Fatal Crashes

State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. ### Leadership Change at the Indiana BMV

Kent Abernathy, Commissioner of the Indiana Bureau of Motor Vehicles, has announced he will be leaving the BMV on January 9 to pursue other opportunities. Kent says that "Since becoming Commissioner, AAMVA has been an invaluable partner. I have not only met some of the most talented people working in government, I have also formed enduring friendships. It has been an honor to be selected to serve as board member." Peter Lacy, Chief of Staff for the BMV, has been selected as the next Commissioner. We wish both Kent and Peter the best of luck.

### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

### Johns Hopkins: Ignition Interlock Laws Reduce Alcohol-Involved Fatal Crashes

State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. ### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

### Johns Hopkins: Ignition Interlock Laws Reduce Alcohol-Involved Fatal Crashes

State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. ### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

### Johns Hopkins: Ignition Interlock Laws Reduce Alcohol-Involved Fatal Crashes

State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. ### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

### Johns Hopkins: Ignition Interlock Laws Reduce Alcohol-Involved Fatal Crashes

State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. ### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

### Johns Hopkins: Ignition Interlock Laws Reduce Alcohol-Involved Fatal Crashes

State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. State laws requiring ignition interlocks for all drunk driving offenders appear to reduce the number of fatal drunk driving crashes, a new study by the Johns Hopkins Bloomberg School of Public Health and Colorado School of Public Health researchers suggests. The study — published Jan. 5 in the American Journal of Preventive Medicine — found that mandatory interlock laws were associated with a seven percent decrease in the rate of fatal crashes with at least one driver with a blood alcohol content over the legal limit. The decrease translates into an estimated 1,250 prevented fatal crashes in states with mandatory interlock laws since states first started passing such laws in 1993. An ignition interlock is an alcohol-sensing device, connected to the ignition of a vehicle, which detects alcohol in the driver's breath. If alcohol in excess of a preset limit is detected by the sensor, the vehicle will not start. While all 50 states have some type of ignition interlock laws, 26 have mandatory laws requiring all individuals convicted of a DUI offense to use an interlock in order to drive legally, as of March 2016. ### TSA Revises Processing of Security Threat Information for HAZMAT Endorsements on CDLs

The Transportation Security Administration (TSA) has [issued](#) an Information Collection Request (ICR) to the Office of Management and Budget (OMB) regarding their processing of Security Threat Assessment (STA) information for individuals applying for a hazardous materials (HAZMAT) endorsement on their commercial driver's license (CDL). TSA is revising the collection of information to allow for recurrent criminal history vetting and will provide applicants fingerprints and associated information to the Federal Bureau of Investigation (FBI) for comparison in the FBI's Next Generation Identification (or successor) system. TSA will also transmit applicants' biometrics for enrollment into the Department of Homeland Security Automated Biometrics Identification (IDENT) System. TSA is also revising this ICR to allow for facilitation of the security threat assessment and future use of the information collected to be used for additional comparability determinations, such as allowing HAZMAT endorsement applicants to participate in TSA's Pre-Check Application Program or obtain a Transportation Worker Identification Card (TWIC) without requiring an additional background check. TSA will also revise fees relative to the Hazardous Materials Endorsement Threat Assessment Program. Comments on this ICR are due by February 8, 2017.

Dear Ms. Thompson,

We have made some minor edits to the post-pilot S2S User Agreement and I have attached it for your review and signature. As mentioned in previous communication one of the changes we made is to insert the effective date of this Agreement to reflect March 1, 2017 which is the end date of the current pilot period.

Please review, and if the Agreement meets your approval enter your Jurisdiction/Agency in the preamble on the first page and the contact information in Section 8 on page 6 (highlighted). Once signed please return to me prior to March 1st and I will have the Agreement fully executed and returned to you.

If, after review, you have some edits/changes you would like to make to the document please track the changes and return to me. Any questions regarding the Agreement can be addressed to either myself or Philippe Guiot (copied).

Dear PDPS User Community:

As a result of the joint efforts of AAMVA and NHTSA, and the invaluable assistance of the NDR Working Group, we are pleased to announce the publication of the new edition of the PDPS State Procedures Manual, which you can access in the AAMVA website (<http://www.aamva.org/PDPS/>).

This new release (3.0.1) of the manual adopts a more appealing style in line with the revamped PDPS Master Specifications published in July 2016. The new version of the PDPS SPM consolidates older documents, namely PDPS State Procedures, Version 2.0 (1/1999) and the PDPS Supplement to State Procedures Manual, Version 2.0 (9/2005).

If you have any questions, concerns, or comments, please contact the AAMVA Operations Department at 1-888-AAMVA80 option 1 or [helpdesk@aamva.org](mailto:helpdesk@aamva.org).

Hello,

DHS/TSA is currently performing developmental testing on the CAT (Credential Authentication Technology). They need 1 newer driver's licenses and 1 under 21 license, so they can test them to verify that the CAT can validate the driver's license from each state. The test articles are strictly for DHS purposes and would not be shared with anyone outside of DHS. The driver's license will be safely stored inside the facility I work in at the TSA Systems Integration Facility (TSIF) in Arlington, VA.

The CAT doesn't record any images or the information on the credential. Once the driver's license is scanned, the CAT just displays a green/red (pass/fail) result, indicating whether or not the security features (e.g., UV) are valid. They are planning on conducting a round of testing on their Credential Authentication Technology (CAT) systems at the TSA Systems Integration Facility (TSIF) in Arlington, VA in February.

Please let me know if you would like to participate in the testing. I look forward to hearing from you.

**Subject:** Serious/Major Disqualifications

Good Afternoon,

I took the CDLIS – Rules for Driver Withdrawals today (1/10), and I also received the handouts for CDLIS three year calculations and AAMVA Code Dictionary – Advanced Scenarios.

Basic question – Do we disqualify a CDL holder if they are convicted of a CDL Serious Offense (383.51 Table 2) while driving a non-CMV?

For Example:

Both tickets are acquired without a CMV, both are within the three year time frame.

S19 and S26

If this person had a CDL and was not driving a CMV when they got this tickets, would we DQ them for the 60 days?

Thanks!  
Abbey

PDPS Participants:

The National Driver Register will conduct a Cleanfile on March 19, 2017

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8, 2017, and plan to send your file to NDR no later than March 15, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to [NDR\\_Operations@dot.gov](mailto:NDR_Operations@dot.gov).

PDPS Participants:

The National Driver Register will conduct a Cleanfile on March 19, 2017

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8, 2017, and plan to send your file to NDR no later than March 15, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to [NDR\\_Operations@dot.gov](mailto:NDR_Operations@dot.gov).

Previous to the go-live weekend, we would like to touch on the agenda items enumerated below. I will be sending AAMVA's timeline on Monday together with AAMVA's contact list and the potential duplicates documents: process, template, and presentation.

#### **Agenda**

- Review dry-run results
- Review AAMVA's go-live weekend timeline
- Review Alaska's go-live weekend timeline
- Exchange contact information for go-live weekend
- Review duplicate processing
- Define Alaska's Web-UI access
- Review go-live weekend testing

Please join my meeting from your computer, tablet or smartphone.

**Subject:** RE: Serious/Major Disqualifications

Abbey,

This is from Table 13 in the ACD Manual release 5.1.0:

*NOTES: disqualification period must be in addition to any other previous period of disqualification (run consecutively)[49 CFR §383.51(a)(5)]* **Applicable for CLP or CDL holder in any type of vehicle and non-CLP/CDL holders operating a CMV - except if the offense stipulates operation of a CMV only**

Exception – **For a CLP or CDL holder, offenses while operating a non-CMV must result in the revocation, cancellation or suspension of the CLP/CDL holder's permit/license or non-CMV driving privileges in state statute)**

So, in your example, if the S19 and S26 result in a loss of privilege (commercial or non-commercial) under your state statutes, then you take the W30 for the second serious within a three year time frame.

Again, the key thing is that the violations would result in loss of privilege. If they paid a fine or otherwise were punished, then the W30 would not apply.

Hope this helps.

**Subject:** Serious/Major Disqualifications

Good Afternoon,

I took the CDLIS – Rules for Driver Withdrawals today (1/10), and I also received the handouts for CDLIS three year calculations and AAMVA Code Dictionary – Advanced Scenarios.

Basic question – Do we disqualify a CDL holder if they are convicted of a CDL Serious Offense (383.51 Table 2) while driving a non-CMV?

For Example:

Both tickets are acquired without a CMV, both are within the three year time frame.

S19 and S26

If this person had a CDL and was not driving a CMV when they got this tickets, would we DQ them for the 60 days?

Thanks!

Abbey

# Summary

- The Bulk Load process generates potential duplicate files.
- Some of the information that States need to determine if a potential duplicate is a true duplicate, is not stored at the Central Site.
- A manual process is currently in place for States to exchange information.
- It is extremely important that States take the time to evaluate each case before taking any action on duplicate pairs.
- States are asked to review and provide feedback on change proposals.

Hello Everyone:

I wanted to provide you information about a recent survey AAMVA is sending out to the jurisdictions. Below is the solicitation for jurisdictions to participate. As the NMVTIS POC, you may have questions directed to you from within your organization or may be the person that will be asked to complete the survey. You can follow the link to see the survey and if you have any questions, please let Vivienne know as directed below.

### **AAMVA Survey Request**

The NMVTIS State Junk Salvage and Insurance (Total Loss) Reporting, (JSI) Task Force is looking into the best approach for states who wish to report information regarding junk/salvage vehicles to NMVTIS on behalf of businesses that are required to report the information to NMVTIS. The businesses that are required to report include, dismantlers, metal processors, recyclers, salvage or junk yards, etc. These are called "reporting entities" throughout the survey. If you have any questions about this survey, please contact Vivienne Cameron at [vcameron@aamva.org](mailto:vcameron@aamva.org).

Marla,

I wasn't aware of anyone who has done what your legislature is contemplating, so I reached out to my colleagues at AAMVA to see if they may be aware of a state that's gone down this road. No one has.

Is your legislature thinking about completely repealing your DUI/administrative legislature? If so you should be able to use loss of federal highway funding as an argument against doing this. And WHY would they want to do so. That baffles me!

Sorry I can't be of more help! Please keep me posted as this would be a first to my knowledge.

Good luck!

Hi Sheila,

I am hoping you can help. We are looking at a bill being introduced to remove our ability to manage DUI revocations and administrative actions. I am looking for anyone that I can talk to that has had this issue and how they combatted it. I just don't understand the thinking about repealing it, but we are at the point where I need to defend the practice and hopefully provide some more information to our legislators.

Hi Sheila,

I hope you are doing well.

I had the good fortune to meet with Marla (on copy) this week. She is the new Director of Alaska DMV. As of today, she will have completed 2 weeks on board. I told her about you and how awesome you and Region IV are and thought that it would be good if you could reach out to her. Marla mentioned she did spend some time going through the website.

I included her contact information below for your convenience:

**Subject:** Alaska S2S Scheduled Migration - Saturday January 28, 2017

Dear CDLIS and S2S Participants:

Alaska will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, January 30, 2017. Tasks related to on-boarding Alaska will be conducted during the weekend of January 28-29, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM to 5:00 AM on Sunday, January 29). The associated timeline is shown below.

Please note that the times shown are tentative, and states are encouraged to avoid this weekend for performing maintenance or deployment activities that require the Central Site to be available. Please contact AAMVA if such activities are unavoidable.

1. Saturday, January 28, 8:00 PM ET: Central Site will be brought down. Messages to the Central Site will be rejected after this time. State-to-state messages (messages not going to the Central Site) will be functional.
2. Saturday, January 28, 8:30 PM ET: Central Site will be brought back up in an INQUIRY-ONLY mode. This will allow CDLIS and S2S users to send and receive inquiry messages to/from the Central Site (CD01/02/05/06/18).
3. Sunday, January 29, 2:00 AM ET: All applications using NCS will be unavailable for regularly scheduled weekend maintenance.
4. Sunday, January 29, 5:00 AM ET: Central Site will be brought back up in an INQUIRY-ONLY mode. This will allow CDLIS and S2S users to send and receive responses to all inquiry transactions to the Central Site (CD01/02/05/06/18). State-to-state messages (messages not going to the Central Site) will be functional.
5. Sunday, January 29, 11:00 AM ET – 3:00 PM ET: Central Site will be taken offline. Messages to the Central Site will be rejected after this time until the system is brought back online. State-to-state messages (messages not going to the Central Site) will be functional.
6. Sunday, January 29, no later than 11:00 PM ET: Full operations restored.

All other systems (PDPS, NMVTIS, SSOLV, etc.) will be up and running during their usual available hours with the exception of the regularly scheduled weekend maintenance January 29 (mentioned in #3). States that are scheduled to implement CDLIS 5.3.2 during this weekend will continue to do so.

AAMVA would like to remind our members that the US Federal Motor Carrier Safety Administration requires states to perform Central Site inquiries prior to making any CDL licensing decisions. Under US federal law, this inquiry must take place not greater than 24 hours prior to transfers and new issuances, and not greater than 10 days prior to renewals and upgrades (See 49 CFR 384.205, and §383.73(a)(3)(ii)). Also, the US National Highway Traffic Safety Administration requires states to query the Central Site before the issuance of an original, renewal, temporary, or duplicate driver license (non-commercial) license (See 49 U.S.C. 30304(e)).

We apologize for the interruption of service and for any inconvenience that the S2S and CDLIS interruptions may cause. AAMVA is taking all steps possible to minimize service interruptions and will be sending alerts notifying states of Central Site availability throughout the process.

One of the benefits of S2S is that it is now possible to identify persons that hold credentials in different states at the same time. This includes the case where a CDL driver holds a CDL in one state and a non-CDL credential, e.g. a base driver's license, in another state. S2S states typically resolve such situations

by either deleting the non-CDLIS pointer, or by performing a CSOR on the CDLIS pointer. Such actions may be accompanied by telephone and/or email contact between the two states involved. The important point is that whenever a new S2S state goes live, CDLIS-only states may for some time afterwards observe a higher than usual number of CSOR transactions emanating from the S2S state. AAMVA will shortly be hosting new webinars to elaborate on this topic.

If you have any questions on the CDLIS/S2S downtime that need immediate attention please contact the AAMVA Operations Help Desk at [helpdesk@aamva.org](mailto:helpdesk@aamva.org). For any inquiries relating to this matter, please contact Pam Dsa ([pdsa@aamva.org](mailto:pdsa@aamva.org)).

Dear CDLIS and S2S Participants:

Alaska will begin using AAMVA's State-to-State Verification Service (S2S) on Monday, January 30, 2017. Tasks related to on-boarding Alaska will be conducted during the weekend of January 28-29, 2017. During this process (Saturday evening to Monday morning), there will be periods during which the CDLIS/S2S Central Site (Central Site) will be in inquiry-only mode or unavailable (over and above the regularly scheduled maintenance window of 2:00 AM to 5:00 AM on Sunday, January 29). The associated timeline is shown below.

Please note that the times shown are tentative, and states are encouraged to avoid this weekend for performing maintenance or deployment activities that require the Central Site to be available. Please contact AAMVA if such activities are unavoidable.

1. Saturday, January 28, 8:00 PM ET: Central Site will be brought down. Messages to the Central Site will be rejected after this time. State-to-state messages (messages not going to the Central Site) will be functional.
2. Saturday, January 28, 8:30 PM ET: Central Site will be brought back up in an INQUIRY-ONLY mode. This will allow CDLIS and S2S users to send and receive inquiry messages to/from the Central Site (CD01/02/05/06/18).

We apologize for the interruption of service and for any inconvenience that the S2S and CDLIS interruptions may cause. AAMVA is taking all steps possible to minimize service interruptions and will be sending alerts notifying states of Central Site availability throughout the process.

One of the benefits of S2S is that it is now possible to identify persons that hold credentials in different states at the same time. This includes the case where a CDL driver holds a CDL in one state and a non-CDL credential, e.g. a base driver's license, in another state. S2S states typically resolve such situations

by either deleting the non-CDLIS pointer, or by performing a CSOR on the CDLIS pointer. Such actions may be accompanied by telephone and/or email contact between the two states involved. The important point is that whenever a new S2S state goes live, CDLIS-only states may for some time afterwards observe a higher than usual number of CSOR transactions emanating from the S2S state. AAMVA will shortly be hosting new webinars to elaborate on this topic.

If you have any questions on the CDLIS/S2S downtime that need immediate attention please contact the AAMVA Operations Help Desk at [helpdesk@aamva.org](mailto:helpdesk@aamva.org). For any inquiries relating to this matter, please contact Pam Dsa ([pdsa@aamva.org](mailto:pdsa@aamva.org)).

Randy,

So if they paid a fine for a speeding ticket(s), we wouldn't give them the serious DQ for two violations within two years, W30? Isn't them paying the fine the indicator that they were convicted of the ticket's charges? That's how the conviction dates get on our system.

So, if they were driving a non-CMV, and they got the tickets or any other Serious DQ offense, we would disqualify them? I'm confused by the last highlighted sentence because it seems like the DQ must occur ONLY because their non-CDL license portion was revoked.

In Table 2 of 383.51 of the FMCSA regulation it says that "a CDL holder must be disqualified from operating a CMV if the conviction results in the revocation, cancellation, or suspension of the CLP or CDL holder's license or non-CMV privileges for..."

It feels like there are a few contradicting statements between the different documents. Just trying to wrap my brain around the correct action to take.

Thanks Randy!

Abbey,

This is from Table 13 in the ACD Manual release 5.1.0:

*NOTES: disqualification period must be in addition to any other previous period of disqualification (run consecutively)[49 CFR §383.51(a)(5)]* **Applicable for CLP or CDL holder in any type of vehicle and non-CLP/CDL holders operating a CMV - except if the offense stipulates operation of a CMV only**

**Exception – For a CLP or CDL holder, offenses while operating a non-CMV must result in the revocation, cancellation or suspension of the CLP/CDL holder's permit/license or non-CMV driving privileges in state statute)**

So, in your example, if the S19 and S26 result in a loss of privilege (commercial or non-commercial) under your state statutes, then you take the W30 for the second serious within a three year time frame.

Again, the key thing is that the violations would result in loss of privilege. If they paid a fine or otherwise were punished, then the W30 would not apply.

Hope this helps.

Good Afternoon,

I took the CDLIS – Rules for Driver Withdrawals today (1/10), and I also received the handouts for CDLIS three year calculations and AAMVA Code Dictionary – Advanced Scenarios.

Basic question – Do we disqualify a CDL holder if they are convicted of a CDL Serious Offense (383.51 Table 2) while driving a non-CMV?

For Example:

Both tickets are acquired without a CMV, both are within the three year time frame.

S19 and S26

If this person had a CDL and was not driving a CMV when they got this tickets, would we DQ them for the 60 days?

Thanks!

Abbey,

In order to use the W30, your state statutes must result in the **revocation, cancellation, or suspension of the CLP or CDL holder's license or non-CMV privileges** for the violations that you plan to link to the W30.

Paying a fine indicates a conviction, but does the conviction result in a **revocation, cancellation, or suspension of the CLP or CDL holder's license or non-CMV privileges**?

I can't speak for the reasoning behind what it stipulates, I can only provide what the ACD manual contains. My recommendation is to have your legal folks weigh in with their interpretation.

Thank you so much! I really appreciate you outlining what I should be asking and what I should be looking at. These regulations are worded so oddly sometimes.

I think if the person had two speeding tickets, it would not result in suspension of their license if they were under the 12 point suspension requirement our state has. I will consult with our lawyers and see what they say about it.

Have a great day!

Marla,

I wasn't aware of anyone who has done what your legislature is contemplating, so I reached out to my colleagues at AAMVA to see if they may be aware of a state that's gone down this road. No one has.

Is your legislature thinking about completely repealing your DUI/administrative legislature? If so you should be able to use loss of federal highway funding as an argument against doing this. And WHY would they want to do so. That baffles me!

Sorry I can't be of more help! Please keep me posted as this would be a first to my knowledge.

Good luck!  
Sheila

Hi Sheila,

I am hoping you can help. We are looking at a bill being introduced to remove our ability to manage DUI revocations and administrative actions. I am looking for anyone that I can talk to that has had this issue and how they combatted it. I just don't understand the thinking about repealing it, but we are at the point where I need to defend the practice and hopefully provide some more information to our legislators.

Thanks,

Steve,

Thanks much! I and Region IV appreciate your kind words.

Marla, welcome. I'm traveling this week, but would love to set up some time within the next week or two to chat. I'll give you a buzz next week.

In the meantime, please let me know if I can be of assistance.

Hi Sheila,

I hope you are doing well.

I had the good fortune to meet with Marla (on copy) this week. She is the new Director of Alaska DMV. As of today, she will have completed 2 weeks on board. I told her about you and how awesome you and Region IV are and thought that it would be good if you could reach out to her. Marla mentioned she did spend some time going through the website.

I included her contact information below for your convenience:

Sure, Thank you.

Also, wanted to confirm that we will be doing the Smoke test next week and wanted to let you know that Monday (MLK day) and Friday (Inauguration day) are both AAMVA holidays. Since we will be executing only a few driver streams as part of smoke test, I think we should be ok with the short week.

It must be REALLY COLD there, this time of year!

Thank you,  
Siri.

Sure, Thank you.

Also, wanted to confirm that we will be doing the Smoke test next week and wanted to let you know that Monday (MLK day) and Friday (Inauguration day) are both AAMVA holidays. Since we will be executing only a few driver streams as part of smoke test, I think we should be ok with the short week.

It must be REALLY COLD there, this time of year!

Thank you,  
Siri.

Hi Siri,

Don't worry about that message I just sent. It was just a reply to the AZ pointer request, but since my email filter thought there was PII, it was automatically encrypted. I just said I'm actually in AK this week so got your message 4 hours later than usual :-0)

November 15, 2016

Dear Jurisdiction Member:

Due to the high cost of credit card processing fees, effective January 31, 2017, AAMVA is no longer accepting credit card payments for payment of IT fees. We appreciate you paying these fees by check, wire transfer or EFT/ACH payment moving forward. I have attached the information you will need to process payments to AAMVA under these three alternatives.

Thank you for supporting the AAMVA IT programs with this important step to contain program costs.

Please let me or my team know if you need any assistance in implementing this change. My phone number and email are below.

Thank you,

## Request for Taxpayer Identification Number and Certification

Give Form to the  
requester. Do not  
send to the IRS.

Print or type  
See Specific Instructions on page 2.

<b>1</b> Name (as shown on your income tax return). Name is required on this line; do not leave this line blank. <b>American Association of Motor Vehicle Administrators</b>	
<b>2</b> Business name/disregarded entity name, if different from above	
<b>3</b> Check appropriate box for federal tax classification; check only <b>one</b> of the following seven boxes: <input type="checkbox"/> Individual/sole proprietor or single-member LLC <input type="checkbox"/> Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶ <b>Note.</b> For a single-member LLC that is disregarded, do not check LLC; check the appropriate box in the line above for the tax classification of the single-member owner. <input type="checkbox"/> Other (see instructions) ▶	<input checked="" type="checkbox"/> C Corporation <input type="checkbox"/> S Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Trust/estate
<b>4</b> Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3): Exempt payee code (if any) <b>5</b> Exemption from FATCA reporting code (if any) (Applies to accounts maintained outside the U.S.)	
<b>5</b> Address (number, street, and apt. or suite no.) <b>4401 Wilson Boulevard Suite 700</b>	Requester's name and address (optional)
<b>6</b> City, state, and ZIP code <b>Arlington, VA 22203</b>	
<b>7</b> List account number(s) here (optional)	

**Part I Taxpayer Identification Number (TIN)**

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

**Note.** If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

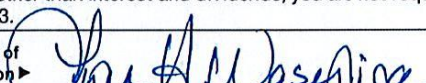

<b>Social security number</b>								
			-				-	
or								
<b>Employer identification number</b>								
5	3	-	0	1	7	2	3	1

**Part II Certification**

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

### General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments.** Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at [www.irs.gov/fw9](http://www.irs.gov/fw9).

### Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.

By signing the filled-out form, you:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
- Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

Sure, Thank you.

Also, wanted to confirm that we will be doing the Smoke test next week and wanted to let you know that Monday (MLK day) and Friday (Inauguration day) are both AAMVA holidays. Since we will be executing only a few driver streams as part of smoke test, I think we should be ok with the short week.

It must be REALLY COLD there, this time of year!

Thank you,  
Siri.

Sure, Thank you.

Also, wanted to confirm that we will be doing the Smoke test next week and wanted to let you know that Monday (MLK day) and Friday (Inauguration day) are both AAMVA holidays. Since we will be executing only a few driver streams as part of smoke test, I think we should be ok with the short week.

It must be REALLY COLD there, this time of year!

Thank you,  
Siri.

Hi Siri,

Don't worry about that message I just sent. It was just a reply to the AZ pointer request, but since my email filter thought there was PII, it was automatically encrypted. I just said I'm actually in AK this week so got your message 4 hours later than usual :-0)

Sure, Thank you.

Also, wanted to confirm that we will be doing the Smoke test next week and wanted to let you know that Monday (MLK day) and Friday (Inauguration day) are both AAMVA holidays. Since we will be executing only a few driver streams as part of smoke test, I think we should be ok with the short week.

It must be REALLY COLD there, this time of year!

Thank you,  
Siri.

Hi Siri,

Since we have limited time, I've added the pointer for Driver A, DLN 7395288. When you get in on Tuesday, please feel free to begin.

Thank you ☺

Sure, Thank you.

Also, wanted to confirm that we will be doing the Smoke test next week and wanted to let you know that Monday (MLK day) and Friday (Inauguration day) are both AAMVA holidays. Since we will be executing only a few driver streams as part of smoke test, I think we should be ok with the short week.

It must be REALLY COLD there, this time of year!

Thank you,

Siri.

Hi Siri,

Don't worry about that message I just sent. It was just a reply to the AZ pointer request, but since my email filter thought there was PII, it was automatically encrypted. I just said I'm actually in AK this week so got your message 4 hours later than usual :-0)

Also, wanted to confirm that we will be doing the Smoke test next week and wanted to let you know that Monday (MLK day) and Friday (Inauguration day) are both AAMVA holidays. Since we will be executing only a few driver streams as part of smoke test, I think we should be ok with the short week.

It must be REALLY COLD there, this time of year!

Thank you,

**Note:** To trigger an unsolicited Possible Duplicate [NA] message to AK, ensure AK adds a Duplicate Pointer (with CDLIS Pointer Indicator (DCDCPI) = N and State Document Type (BJDTYP) = 1 or 2) after P6 executes this Test Case. AK must use the new Name, DOB and SSN values listed above.

Hi Siri,

Yes, there is a pointer for 7395314 with the new DOB, so you should get the NA. Please go ahead with A11.

Ok, A9/10 looked good and before sending A11 just wanted to confirm the duplicate AK pointer was already there(from last run)?

**Note:** To trigger an unsolicited Possible Duplicate [NA] message to AK, ensure AK adds a Duplicate Pointer (with CDLIS Pointer Indicator (DCDCPI) = N and State Document Type (BJDTYP) = 1 or 2) after P6 executes this Test Case. AK must use the new Name, DOB and SSN values listed above.

Thank you

Ok Mina, A5/6 looked good, so A7/8 have been sent.

Please note, after the negates, we should have the A20 and the S01 convictions only on H3.

For withdrawals, we will need a withdrawal for A20 from AK for at least 1 year(and the existing S01).

Thank you,  
Siri.

Sure, Thank you.

Also, wanted to confirm that we will be doing the Smoke test next week and wanted to let you know that Monday (MLK day) and Friday (Inauguration day) are both AAMVA holidays. Since we will be executing only a few driver streams as part of smoke test, I think we should be ok with the short week.

It must be REALLY COLD there, this time of year!

Thank you,  
Siri.

Hi Siri,

Don't worry about that message I just sent. It was just a reply to the AZ pointer request, but since my email filter thought there was PII, it was automatically encrypted. I just said I'm actually in AK this week so got your message 4 hours later than usual :-0)

Mina,

I tried the UD and see the NA being generated but did not see the H2 comeback from AK. Also, there seems to be a slight delay in the H\* messages being received. Could you please take a look?

Thank you,  
Siri.
